## INFORMATION DISCLOSURE STATEMENT

Assistant Commissioner for Patents  
Washington, D.C. 20231Re: Patent Application of Brad A. Armstrong, Inventor  
Serial No.: 09/721,848 Filed: 11/22/2000  
Title: SHEET CONNECTED SENSORS WITH VIBRATION  
Examiner: Chow, Doon Y Group Art Unit: 2675

Dear Sir:

Herewith is another multiple page prior art Information Disclosure Statement, using Substitutes for form 1449A/PTO. Best full or best partial copies of the reference disclosures are included for reviewing by the Examiner. These additional listed reference disclosures should be considered by the Examiner (PTO). Depending upon the particular claim, certainly not all of the listed disclosures are "prior art" to the present invention, as the instant Application is filed in a chain of co-pendency with a priority claim under 35 USC 120 dating back to at least March 5, 1992.

Next to each listing of the reference disclosures is the statement "generally all", which in this case means the reference disclosure is relevant in general terms and should be reviewed at least because it discusses one or more related electrical devices, and is therefore at least somewhat relevant to the present invention. However, I believe none of the reference disclosures of record alone anticipate the present invention, and that no proper combination of any of the prior art of record suggests the present invention.

While I do not believe there are any identical scope claims, I wish the issues pertaining to Double Patenting be considered by the PTO, as I have many additional pending U.S. Patent Applications and Patents under my name. Please do not hesitate to request from Applicant anything which may be of help. Thank you for your assistance with this very important matter.

  
Brad A. Armstrong, Inventor

Date: 2-21-02
